Definitions

MFA — *Multi-Factor Authentication*

IT — *Information Technology*

Overview

Unable to sign in to your company account?

This article helps you troubleshoot common account access issues such as:

- Forgot your password
- Password has expired
- Account has been locked
- Sign-in attempts are unsuccessful
- MFA verification fails
- Unable to access company applications after changing your password

Follow the instructions below to restore access without contacting the IT Help Desk.

Procedure

Ensure that any one of the following accesses is available before proceeding with any one of the options to reset:

- Registered business email address

- Registered mobile phone
- Authentication application (if configured)

Note: When none of the above are available, contact the IT Service Desk for assistance.

Option 1: Using Self-Service Portal

Complete the following steps to reset the password using Self-Service portal:

1. Log in to the [Self-Service Portal](#).
2. Select **Forgot Password**.
3. Enter your employee ID or corporate email address.
4. Select **Continue**.
5. Choose a verification method:

- Email Verification
- SMS Verification
- Authentication App

6. Enter the verification code received.

Note: Successful verification is completed.

7. Enter a new password.

Note: The password must apply the requirements below:

- Minimum 12 characters
- One uppercase letter
- One lowercase letter
- One number
- One special character

Example: Knowledgebase@2026

8. Confirm the password.
9. Select **Reset Password**.
10. Return to the application login page.
11. Enter your username.
12. Enter the new password.
13. Confirm successful login.
14. End process.

Option 2: Unlock a Locked Account

After multiple unsuccessful login attempts, your account may be automatically locked. Complete the steps below when the account is locked:

1. Log in to [Self-Service Portal](#).
2. Select **Unlock Account**.
3. Verify your identity.
4. Follow the on-screen instructions.
5. Sign in again after the account is unlocked.
6. End process.

Troubleshooting

Issues	Causes/Actions
Password Changed but Still Can't Sign In?	Actions: 1. Wait five (5) minutes. 2. Close all applications. 3. Sign out from all browser sessions. 4. Restart your device. 5. Sign in again using the new password.
Verification Code Not Received	Causes: • Delayed email delivery • Network issues • Incorrect contact information Actions: 1. Check Spam or Junk folders. 2. Request a new code. 3. Confirm your registered phone number. 4. Try an alternate verification option.
Authentication App Not Working	Actions: 1. Ensure the device time is synchronized. 2. Refresh the authentication application. 3. Generate a new code. 4. Contact IT support if the issue persists.
Password Reset Link Has Expired	Actions: 1. Return to the login page. 2. Select Forgot Password again. 3. Generate a new password reset request.

Best Practices

Ensure to keep the account secure as follows:

- Use a unique password
- Do not share credentials

- Enable MFA
- Avoid writing passwords on paper
- Change passwords immediately if compromise is suspected

Frequently Asked Questions

- **Can I use my previous password?**
No. The system prevents the reuse of recent passwords.
- **How often should I change my password?**
Follow your organization's password policy and security guidelines.
- **Will changing my password affect other applications?**
Some applications may require you to sign in again using the updated password.
- **What should I do if my account remains locked?**
Contact the IT Service Desk and provide your employee ID for verification.
